# INDEX TO VOL. 59 OF THE TOHOKU JOURNAL OF EXPERIMENTAL MEDICINE

## Subjects

**Acid-base balance :** — — — during bilateral thoracotomy ..... *23*

**Acid secretion :** How to visualize — — from gastric mucosa ..... *10*

**Adrenal cortex :** Neurohumoral regulation of — — ..... *295*

**Adrenal gland :** Role of — — in alloxan effect on blood sugar ..... *379*

**Alloxan :** Mechanism of — initial hyperglycemia ..... *379, 391*

**Antigenicity :** — of high-molecular components of gastric mucosa .. *163, 177*

**Ascites :** A toxic substance in carcinomatous — ..... *79*
Chemistry of a protein of — ..... *87*

**Bacilli chitinovori :** Influence of — — on culture of dermatophytes ..... *403*

**Bone conduction :** Measurement of decreased — — acuity with occluded external auditory canal ..... *145*

**Cancer :** — illness among residents of Miyagi Prefecture, *1951* ..... *213*
Cytodiagnosis of carcinoma and sarcoma..... *283*

**Carcinomatous ascites :** A toxic substance in — — ..... *97*

**Cardiography :** Intracardial phonocardiography ..... *307*

**Casein hydrolysate(s) :** Oral administration of — — ..... *79*

**Cerebral circulation :** Influence of various narcotics on — —..... *149*

**Chitinase :** Utilization of — for dermatomycosis .....*403, 407*
Influence of crude — fluid on culture of fungi..... *407*

**Conduction test :** Occluded bone — — ..... *145*

**Congo red index :** Seasonal influence upon the — — — ..... *257*

**Cord :** Histology of human sacral —.. *207*

**Cord, spinal :** Motor and sensory nerve systems in human lumbal cord..... *37*
Vegetative nerve cells in human lumbal cord ..... *53*

**Cytodiagnosis :** — of carcinoma and sarcoma..... *283*

**Dermatomycosis :** Utilization of chitinase for — ..... *403, 407*

**Facial nucleus :** Location of — — of birds ..... *137*
Medullar reflex on — —..... *159*

**" Flocculation number " of serum :** Regular outcome of — — — — in electric loading of human..... *105*

**Gastric mucosa :** How to visualize acid secretion from — —..... *10*
High-molecular components of — — and their antigenicity ..... *163, 177*

**Group A lipoid :** Chemistry of — — — of pig stomach mucosa..... *63*

**Group lipoid :** Chemistry of — — from human liver ..... *225, 231*
Chemistry of — — of pig lung.... *247*

**Heart :** Innervation of — in dog.... *343*

**Hexosamine(s) :** Paper chromatography of — ..... *1*
— containing carbohydrates from pig kidney cortex ..... *69*

**Hexuronic acid(s) :** Paper chromatography of — — ..... *1*

**Histology :** — of olfactory bulb in man ..... *357*

**Hyperglycemia :** Mechanism of alloxan initial — ..... *379, 391*

**" Induction, indirect " :** Velocities of spreading induction in retina..... *11*

**Innervation :** — of heart in dog *343*
— of hard palate in cat and hedgehog ..... *371*

**Kidney cortex :** High-molecular components of pig — —..... *69*

**Lipoid:** Chemistry of Group — from human liver ..... *225, 231*
Chemistry of Group — of pig lung.. *247*
**Lipoid, Group A:** Chemistry of — — — of pig stomach mucosa ..... *63*
**Liver:** Function of Kupffer's stellate cells and —..... *265*
Influence of vegetative nervous system upon — ..... *275*
Role of — in alloxan effect on blood sugar ..... *391*
**Medullar reflex:** — — on facial nucleus of mammals and birds .... *159*
**Miyagi Prefecture:** Cancer illness among residents of — —, *1951*.... *213*
**Motor and sensory nerve systems:** — — — — — in human lumbal cord ..... *37*
**Narcotic(s):** Influence of various — on cerebral circulation ..... *149*
**Neurohumoral regulation:** — — of adrenal cortex ..... *295*
**Nucleic acids:** Organ-specificity of pentose-nucleic acids ..... *193*
**Olfactory bulb:** Histology of — — in man ..... *357*
**Organ-specificity:** — — of pentose-nucleic acids ..... *193*
**Oxidase:** Congenital gigantism of — granules ..... *315*
**Palate:** Innervation of hard — in cat and hedgehog ..... *371*
**Peroxidase:** Congenital gigantism of — granules ..... *315*
**Phonocardiography:** Intracardial — ..... *307*
**Pituitary gland:** Role of — — in alloxan effect on blood sugar ..... *379*
**Protein:** Chemistry of a — of ascites ..... *87*
**Pus:** Paper chromatography of tuberculous — ..... *131*
**Reticuloendothelial system:** Influence of vegetative nervous system upon — — ..... *275*
**Retina:** Velocities of spreading induction in — ..... *11*
**Rods:** Spectral response curve of —.. *333*
**Sacral cord:** Histology of human — — ..... *207*
**Seasonal influence:** — — upon the congo red index ..... *257*
**Secretion, gastric:** How to visualize açid secretion from gastric mucosa.. *10*
**Serum protein(s):** Change of — — in electric loading of human .... *105, 119*
Electric loading of human and — — fractions in electrophoretic diagram ..... *119*
**Soya-bean hydrolysate(s):** Oral administration of — — — ..... *97*
**Spectral response curve:** — — — of rods ..... *333*
**Stellate cell(s)** Function of — — and liver ..... *265*
**Thoracotomy:** Bilateral — and acid base balance ..... *23*
**Tuberculous pus:** Paper chromatography of — — ..... *131*
**Vegetative nerve cells:** — — — in human lumbar cord ..... *53*
**Vegetative nervous system:** — — — and function of reticuloendothelial system and of liver ..... *275*
